

2004 RAMS Plus Exchange (RPX) User Group Meeting Agenda

- Why** The RPX has two primary objectives:
- Exchange of methodologies to use and apply RAMS Plus more robustly & effectively for your simulation requirements.
 - Participate with RAMS Plus users and developers to direct the dynamic evolution of RAMS Plus, to ensure that RAMS Plus continues to be a valuable resource in your ATM analytic needs.
- Host** Nav Portugal in Lisbon, Portugal
- Where** Tivoli Tejo Hotel
<http://www.tivolihotels.com/tivoli/www/e/hoteis/tejo/descricao.asp>
- When** May 13th & 14th, 2004
09:30 – 16:00
- Contact** Jesús Conde Nav Portugal jesus.conde@nav.pt
Kenny Martin ISA Software kenny@isa-software.com
- Hotels** The conference will be held at the Tivoli Tejo Hotel (see above).
- Social Events** Post-dinner drinks on Wednesday evening. For people interested, we will be meeting in the lobby of the Tivoli Tejo Hotel at 21:00 to have a post-dinner drink. Carolyn will scope out an interesting bar, and you can contact her on her portable at 00.33.6.03.79.05.91 if you get lost or are arriving later.
- There will be an organised dinner on Thursday evening. This will be a pay-as-you-go event, where participation is encouraged but certainly not obligatory.
- Demo Platform** For tutorials, convenience and to encourage discussion, a PC laptop containing the latest RAMS Plus and ATM Analyser releases will be available at all times during the RPX. Bring your memory sticks loaded with your favourite scenario.
- Presentations** All users are encouraged to present a short presentation on their modelling projects. Please contact ramssupport@isa-software.com to be included on the agenda.

ALL TIMES AND PRESENTATIONS ARE ESTIMATES

Thursday May 13th

09:30 Welcome and Opening Remarks	Nav Portugal
09:45 RAMS Plus Status Review	ISA Software
10:15 ATM Analyser Status	ISA Software
11:00 Coffee	User Group
11:30 To Be Announced	Imperial College
12:30 Lunch	NavPortugal
14:00 RAMS Plus Airside Component	ISA Software
15:00 Coffee	User Group
15:30 Capacity Analysis with RAMS Plus	Univ. Belgrade
20:00 Dinner to be announced, pay-as-you.go.	User Group

Friday May 14th

09:30 PITOT & RAMS Plus Component	AENA
10:00 Capacity Analysis with the ATM Analyser	NATS UK
10:30 Noise Modelling With ENHANCE	ISA Software
11:00 Coffee	User Group
11:30 ACTS Telecommunications Modelling	ISA Software
12:30 Lunch	NavPortugal
14:00 User Group Business	User Group
14:30 Round Table: What Analysis Capabilities Do You Need? What are the RAMS Plus & ATM Analyser Development Priorities? What features would you like to see added or expanded in RAMS Plus and the ATM Analyser?	User Group
